KM Cattle Top Cut Open House Bull Sale

Sunday February 18th, 2018-- 1:30 PM Start time

Location

At the Farm
30436 335th St.
Coon Rapids, IA 50058

Sale Contacts

Kent Musfeldt 712.210.1170
Kyle Musfeldt 712.210.6222

Sale Itinerary

Cattle are always available for viewing (year round!), but especially ahead of sale. Give us a call. We encourage this so that we can better assist you with your bull needs.

12:00 PM- Complimentary lunch

1:30 PM- Bid-off begins

Consultants/Representatives

Adam Conover 816.676.8560 with American Angus Association
Clay Stetzel 641.740.0989 with Guthrie Livestock Auction
Myron Benes 402.741.2040

Accommodations

Boulders Inn & Suites, Manning, IA
712.655.4000
Super 8, Carroll, IA
712.792.6666

Terms and Conditions

KM Cattle Co. assumes no liability in case of accident. All cattle sell under the terms and conditions recommended by the American Angus Association.

Semen Evaluation

All bulls have had a breeding soundness exam performed on 1/26/18 by Dr. Shawn Nicholson, Stuart Vet Clinic

KM Cattle Semen Interest

KM Cattle retains 1/2 interest semen interest in all bulls selling. Buyer receives full possession and full salvage value of the bull.

Freeze Brands

All bulls have been freeze branded on the left hip

Video of bulls

Several of the bulls have been pictured and video'd. Due to time and weather constraints, we were unable to get all bulls video's even though many more merit it. These videos can be found on our website, www.kmcattle.com, on the Bull Sale tab. Contact us if you need help viewing these videos.

EPD's

All printed EPD's are as of 1/25/18. Carcass ultrasounds and yearling data will be incorporated into EPD's within next couple weeks and we will send out notices of this as well as having a supplement sheet with updated EPD's.

LIVE ON THE INTERNET. LIVE AUDIO. VIDEO BIDDING.

LiveAuctions.TV

To register and follow the auction in real time on the internet, log onto website: <http://www.liveauctions.tv>. For more information, call LiveAuctions/Superior Livestock at 800-431-4452. Prior day approval is recommended but not required. Mallory Early will be the Live Auctions rep on site the day of the sale. Call her with any questions or concerns or to get approved for bidding. Mallory- 660-525-5717.

Phone Bids

Phone bids will be handled in a confidential manner. If you are unable to attend the sale, please contact Kent, Kyle or Adam Conover so we can assist you with your purchase.

Volume Discounts

Volume Discounts will be offered starting on the 3rd bull purchased- 3% off 3rd bull; 4% off 4th bull; and increasing 1% per additional bull purchased, up to 10% off the 10th bull.

Sale Format

Bulls will have an affordable base price that will be determined ahead of sale day. Buyer numbers will determine sale order. When we call buyer #1, they will announce what bull they would like to purchase. If other buyers are interested in the same bull, we will auction until the bull is sold. If no other buyer raises the base bid, then the bull is sold at the base price. Buyer #1 will hold the floor until he is done selecting bulls. We will do this until we have either sold out of bulls or worked through the initial list of buyers. Any bulls remaining will be available on a first come/first serve basis at the base price.

Dear Angus Friends & Enthusiasts,

We would like to welcome everyone and invite you to join us on Sunday February 18th. This is our second year of hosting an open house in conjunction with our bull sale. It is our 7th year of doing our sale in this format and it has worked great for both seller and buyer. 3 years ago we celebrated 50 years in the Angus business and it is amazing to look back and see how far we have come.

We are really excited about this 2017 calf crop of bulls. There are several bulls that truly merit breeder and stud interest, these are bulls that can make a lasting impact on the entire Angus breed. We also have many top notch bulls for the progressive commercial cow calf producer that needs calving ease, power, growth, soundness, functionality, great maternal traits and top notch carcass traits. The commercial cow calf producer has always been and will always be our bread and butter and what keeps us in this business that we love. Our breeding program focuses on real world, sound and functional cattle that excel for calving ease, growth, carcass, maternal, and feed efficiency, yet are still in a powerful phenotype package. These bulls have never been creep fed and were developed on a grower ration, not ever pushing the bulls hard. They are developed this way, to maximize their longevity and fertility. This also allows us to be able to truly analyze the performance of our cows.

With the tools we have available to us today, it really pays to invest in genetics with more genetic merit as the price between cattle with more genetic merit and those with less, continues to widen. So it really does pay to position yourself with elite Angus genetics. As long as we communicate the genetics, cattle with elite genetic merit will sell themselves, when sale day comes.

We hope to see you on Sunday- February 18th and let us know if you have any questions ahead of time. We encourage herd visits anytime so that we can better assist you 1 on 1 with your bull needs and making sure that you find that right bull for your needs.

Thanks and see you on the 18th!!

What a year it has been for Broken Bow! He has truly proven himself the old fashioned way. Earning his way to the top of ABS Global, he lead ABS in sales for the Spring of 2017 and is set for many more years like this.

He has rapidly become one of the most popular bulls in the breed. His sons have consistently topped sales where he has been used including the recent \$190,000 Casino Bomber in CA to Vermillion Angus Ranch of MT; the \$50,000 Sitz Alpine to Genex and Hilltop Angus; the \$60,000 valued Sydgen Blueprint to Justin Spickler of ND and the increasingly popular Spring Cove Reno at ST Genetics. Broken Bow is also one of the most popular bulls in Australia due to his foot quality, muscle shape, and feed efficiency.

Broken Bow's 2nd generation Pathfinder dam records BW 7@99; WW 7@108; YW 6@103. Broken Bow is well on his way to becoming a pathfinder sire. He records BW 1,978@98; WW 1,955@101; YW 963@101; IMF 625@108; RE 625@100; Rib Fat 626@99. Nationwide, his daughters record an average NR of 101. We have several Broken Bow daughters in our herd who have already earned pathfinder status. You can see their impact in this sale- Lots 1-3, 18, 32, 34, 37, 38.

Broken Bow is the only bull in the breed that maintains an EPD spread of BW -1; WW +60; YW +100 with accuracies of .90, .90, and .88!

He and his full sisters have taken our program to a new level. We believe progeny from his full sisters, including some in this sale, can have the same kind of impact that Broken Bow has had upon the Angus Breed. Be sure to take a good hard look at these Princess sons, LOTS 4, 5, 6, 7, 11, 22, and 27 in this sale.

Also selling is an outstanding Broken Bow son as Lot 8.

We feel this is one of the best bulls we have ever raised. We think he can make the same kind of impact that Broken Bow has done all over the country and world.

His Broken Bow dam is one of only 2 cows in the Angus breed that can match her combination of WW, YW, DMI, and \$B. She records BW 3@99; WW 3@109; YW 2@103; IMF 2@112. Granddam was the top selling cow at the 2011 Flag Ranch Dispersal for \$13,000. She has built an absolute powerful cow family at KM Cattle. 359 is on the verge of doing HUGE things for us.

Lot 1 is a very unique Bronc son offering more frame and performance than his sire. He is the #7 son of Bronc for \$B and #1 son for \$W. He is the only non-parent bull in the breed that can match his combination of CED, DMI, and \$B.

Excellent muscle shape, loads of depth and capacity, wide over his top, super long bodied and structurally very correct, he really does it all and we believe he is the kind of bull that can do big things on a national level. He ranks in the top 15% for nearly every economically important trait.

His i50K genomic test ranks him in the top 10% or better for these traits: CED, WW, Doc, Milk, CW, and Tenderness. And a 15 for DMI.

We also feel this is one of the best bulls we have ever raised. He is a genomic superstar. He also has the potential to be a high impact bull all across the United States.

His Broken Bow dam is one of only 2 cows in the Angus breed that can match her combination of WW, YW, DMI, and \$B. She records BW 3@99; WW 3@109; YW 2@103; IMF 2@112. Granddam was the top selling cow at the 2011 Flag Ranch Dispersal for \$13,000. She has built an absolute powerful cow family at KM Cattle. 359 is on the verge of doing HUGE things for us.

Lot 2 is the #2 son of Treasure for \$B; when figuring in CED as well, he moves up to #1. He ranks #1 among Treasure sons for \$W. He is the only bull in the breed that can match his combination of CED, WW, YW, \$W, \$B.

These two flush brothers are phenotypically nearly identical. For late March born bulls they are very powerful and continue to change and impress more every day. They are larger framed bulls with good muscle, good depth and structurally very sound. Extremely long bodied!

His i50K genomic test ranks him in the top 10% or better for these traits: WW, YW, Doc, HP, CEM, Milk, CW, Marb. And a 13 for both DMI and Tenderness

Lot 3 phenotypically is just like his brother Lot 2 and with very similar EPD's and genomics. He is also a genomic superstar and has the same kind of high end potential as his full brother. We expect BIG things out of him.

His Broken Bow dam is one of only 2 cows in the Angus breed that can match her combination of WW, YW, DMI, and \$B. She records BW 3@99; WW 3@109; YW 2@103; IMF 2@112. Granddam was the top selling cow at the 2011 Flag Ranch Dispersal for \$13,000. She has built an absolute powerful cow family at KM Cattle. 359 is on the verge of doing HUGE things for us.

Lot 3 is the #4 son of Treasure for \$B. He ranks #4 among Treasure sons for \$W.

These two flush brothers are phenotypically nearly identical. For late March born bulls they are very powerful and continue to change and impress more every day. They are larger framed bulls with good muscle, good depth and structurally very sound. Extremely long bodied!

His i50K genomic test ranks him in the top 10% or better for these traits: WW, YW, YH, CW.

Bronc x Broken Bow's Full Sister!!

Lot 4 is super wide based, extremely deep bodied, heavy muscled individual who is structurally very sound with excellent foot quality. He has a big wide top and excellent front end. We feel he is VERY similar in every way to Broken Bow and they have very much resembled each other since day 1.

His dam is a full sister to KM Broken Bow 002, who led ABS in sales for Spring of 2017. Broken Bow's sons have topped sales all over the country as of recent, including recently the \$190,000 Casino Bomber in CA selling to Vermillion Ranches in MT. The top 2 sellers in the fall 2017 Sitz Angus Ranch bull sale were Broken Bow sons selling to Genex and Hilltop Angus for \$50,000 and the other to R Math Farms for \$37,500. The top selling bull in the Sydenstricker Genetics Fall 2017 bull sale was a Broken Bow son selling to Justin Spickler of ND for \$30,000.

We recently sold his dam, 047, as a highlight in the 2018 NWSS Foundation Female Sale in Denver. She sold for \$10,500 to Knox Brothers Angus of San Angelo, TX. We also retained 1/2 interest on her newborn bull calf at side by Baldrige Colonel and are very excited about our new partner on him. The Colonel bull calf and Lot 4 would be 3/4 brothers.

We really feel Lot 4 can sire very similar cattle to what Broken Bow has done. They have the ability to have the same kind of impact on the breed.

Very sound and well balanced from every angle. He is truly a no holes kind of bull that really just does it all. Loads of maternal excellence here.

CW	Marb	RE	Fat	SW	SF	SB
33	.85	.46	.026	49.74	67.34	130.72

At the time we used SAC Conversation he very much fit the performance world with his EPD's, Since then he has come back to reality on his performance numbers and proven himself as a phenotype sire that will make some extremely attractive cattle. We feel these bulls are very unique and special, given their absolutely impressive phenotype, solid well rounded EPD figures, and pedigrees.

Their dam is a full sister to KM Broken Bow 002, who led ABS in sales for Spring of 2017. Broken Bow's sons have topped sales all over the country as of recent, including recently the \$190,000 Casino Bomber in CA selling to Vermillion Ranches in MT. The top 2 sellers in the fall 2017 Sitz Angus Ranch bull sale were Broken Bow sons selling to Genex and Hilltop Angus for \$50,000 and the other to R Math Farms for \$37,500. The top selling bull in the Sydenstricker Genetics Fall 2017 bull sale was a Broken Bow son selling to Justin Spickler of ND for \$30,000.

Donor dam has done a phenomenal job at KM Cattle. We always felt she was the female version of Broken Bow. She records BW 5@95; NR 5@107; YWR 4@104. Calving interval 5 @ 365 days. She posts REA 4@104. She posted individual ultrasound of 8.96% IMF ratio 153; RE 13.4" ratio 124.

These bulls have well outperformed their EPD's and are truly special.

Journey x Traction's Full Sister!!

JMB Traction- Full brother to Dam

Maternal Grandam- JMB Emulota 013

KM Essential- Mat. bro to Dam

Dam pictured as a yearling

Lot 9 is one of the most interesting Journey sons in the country. His dam is a full sister to the Select Sires standout, JMB Traction. There are not very many Journey sons out there that are +120 YW and +184.41 \$B. He is phenotypically powerful, big boned, wide based, big topped and long bodied. Not many Journey sons can match his phenotype. We had the misfortune of losing his dam when he was just 2 months old so he was actually raised as an orphan calf and never missed a beat.

Several full sibs and maternal sibs to his dam have been top sellers at the National Western Stock Show for anywhere from \$15,000 to \$31,000 for half interest. Granddam JMB Emulota sold in the 2017 NWSS Trowbridge Family of Friends Sale for \$45,000 half interest.

A full sister to his dam, KM Emulota 6108 is a KM donor and will soon leave her mark on our herd and we believe she can make an impact across the country. She is one of the very best females we have ever seen.

His i50K genomic test ranks him in the top 23% or better for these traits: WW, YW, DMI, Doc, Milk, CW, RE (1), Fat, and Tenderness.
